

MANAGE H&S → SAVE LIVES → BE EFFICIENT

Health & Safety Retainer Service

It is a legal duty under Regulation 7 of the Management of Health and Safety at Work Regulations 1999 that every organisation must have access to competent health and safety advice and assistance.

As your competent advisor, we will ensure that you are keeping up to date with the constant changes in Health and Safety legislation and will help to keep your employees healthy and safe.

A competent advisor should have the skills, knowledge, practical experience and training to enable them to assess the possible risks rising from work activities which may be hazardous to the health or wellbeing of employees.

The competent advisor could be an employee; however, it is often simpler for organisations to outsource this role to an external consultant thus ensuring the competent person's health and safety qualifications remain up to date and subject to continued professional development.

Our popular Health and Safety Retainer Service has everything you need to maintain your organisation's safety standards and avoid the penalties of non-compliance and give you the peace of mind that should an incident occur or an enforcer arrive on site you will have everything in place.

But why bother spending money every month?

You may read articles that indicate the level of fine that a successful prosecution may incur, but did you know that the real cost of health and safety failure is lost efficiency within the business, the companies that manage health & safety well are often much more profitable.

The hidden costs of poor health & safety are summarised by using the iceberg analogy, where only the tip of the iceberg shows, these are the visible costs, whereas most of the iceberg is underwater and these represent the hidden costs.

Visible Costs:

Claims, Fines

Hidden Costs:

Inefficiencies

Lost time

Production delays

Reputation

Stock damage

Reputational effects

Etc

We can help you ensure your business runs with as little waste cost as possible by helping with risk assessments and developing safe systems of work.

One of the best ways of getting competent advice is to use our retainer services, you can then have peace of mind knowing that you are covered and have access to immediate telephone advice.

We offer three service levels designed to allow you to choose the right service for your business and spread the cost of health & safety management over the year.

Our three service levels are conveniently arranged as:

Bronze

Silver

Gold

All service levels will be undertaken by a consultant who is a chartered member of IOSH

All service levels give:

- **Telephone advice available 09:00 to 17:00 hours Mon-Fri.**
- **Email advice available 09:00 to 17:00 Mon-Fri**
- **An emergency out of hours call out facility is available, a call out charge of applies.**

We can also tailor a service for you from the options below.

The Health and Safety Retainer Service have a minimum 12-month contract and paid monthly by standing order.

The cost is fixed and there are no hidden costs, additional health and safety support will be agreed before any work is undertaken.
